

Esplanade Pavers

The new Esplanade Paver is available just in time for today's linear hardscape design trends! The size of the pavers 2 3/4" x 2 3/4" x 8 3/8" allows the Landscape Architect to choose a variety of laying patterns from the classic running bond pattern to triple basket weave. Chamfered on the wearing surface, Esplanade is available in a variety of clear-burn colors.

Esplanade Red

Permeable Pavers

These genuine clay permeable pavers allow rainwater to filter down through a specially constructed paving system and dissipate into the soil, rather than carry excess pollutants into storm drains.

StormPave® Permeable Pavers are available in all English Edge Series colors.

See back page for dimensions. Contact your PHB representative to request a Permeable Pavers brochure.

Tactile Pavers

ADA truncated dome pavers are required in transition zones between pedestrian and vehicular traffic areas. Red in stock. Call for availability of other colors.
